## Academic Projects:

### [ MCA 5<sup>th</sup> Semester – MINOR PROJECT]: Online Discussion Forum

#### Language of implementation: PHP

It's a **PHP** project named “**Online Discussion Forum**” is the place where persons after creating their account can share their ideas and make discussions on various topics. It's a technical discussion forum, where users will be able to enter questions and get answers on various technical and other topics. For example, the topic can be related to **C, C++, PHP, Java, General Knowledge, English, Math's, Hibernate etc.** Each type of questions will be under particular forum. Registered users will be allowed to enter questions, provide answers to the questions, get personal messages to their notification area, make reply to other existing posts etc. Even the attachments can be made with particular posts through technical online discussion form developed in **PHP**.

### [ MCA 6<sup>th</sup> Semester – MAJOR PROJECT]: Kalpataru

#### Language of implementation: PHP

**Kalpataru** is a complete project solution that maximizes the speed and effectiveness of user efforts. **Kalpataru** Portal instantly administrative side posts positions created and user booking various events from the web site. A full set of intuitive tools allows for user to search and booking respective order.

**Kalpataru** caters a two-way service. Firstly, a user can register himself with this. If the person is already a registered user, is affiliated to update own profile. If not, is needed to be a registered user first. The users are required to specify their Name, Email id, age, phone No. etc. and these serve as the Key Functional Parameters while matching the User criteria.

Secondly, the registered user can access various types of events by using this web-site after the approval from the Administrative section. The Key Functional Parameters are the main arguments while accessing by the administrative section, considered amongst the updated event. Although, there is a provision for the non-registered users, who does not access any service/event.
